Reports of counter-espionage character prepared by S.I. agents in Spain are furnished to Algiers, Washington and London.

B. Portugal: C.E. activities in Portugal have been built up over a period of the last year by representatives of the S.I. branch. A large network of sub-agents and informers is functioning, and is making an important contribution. At the moment, the representative who was formerly handling the C.E. work in Lisbon has been removed and his assistant is handling the work temporarily. Arrangements have been made for the appointment of a trained representative to take the C.E. post in Lisbon. He is well known to Minister Fish, the State Department and ONI as a well-qualified agent. It is contemplated to appoint him as Assistant to the American Consul at Lisbon, managing passport control and security matters. Trained assistants are being prepared for him. He will work under the OSS Chief of Mission and in close cooperation with the Legation, the Military and Naval attaches as well as with the British C.E. rep-

(b) At the present time no direct control is exercised by the Commanding General, North African Theatre of Operations. However, copies of all reports are furnished directly from Spain and Portugal to the North African Theatre of Operations as well as to London and Washington.
